PROGRAM

Public Comment

APR 23 1998

Date April 13, 1998

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

Over the years conservation of San Francisco Bay-Delta and the availability and use of California's water has been a problem. Real conservation is of the utmost importance.

We do not need more canals, reservoirs, or water diversion to solve our problem. Please work to stop further construction of same. Tax payers should not have to bear the cost of water for large corporate farms. Agri-business tends to hurt California citizens. Find ways to use less water!
